## Sight Preservers

Lenses joined by their frame of gold or nickel are wonderfully potent for good or evil. Properly fitted they build up the eyes and preserve the sight—improperly fitted they tear down and destroy.

Reading a few lines of print with a pair of glasses is no test. The sight must be tried by modern and scientific methods.

We have every facility for making tests and can supply any kind of glasses required at moderate cost.

## UPHELD

### Are the Smoke Nuisance Laws by a Chicago Judge.

Chicago, May 24.—A ruling has been made in court here which is of interest to all cities in which the smoke nuisance has become a serious matter.

Chicago ordinances governing the so-called smoke nuisance are upheld by Judge Kohlsaat in an opinion announced in the suit begun some time ago by the Glucose Sugar Refining company to restrain the city from enforcing the laws and attacking the power of the council to pass such measures, claiming that the enforcement of the ordinances, under the fourteenth amendment to the constitution of the United States is the taking of a citizen's property without the due process of law. "The position taken by complainant involves the whole question of the suppression of dense smoke. If the health and morals of the city require it, even such a result as the bill of complaint declares should not be allowed to defeat the efforts of the authorities by proper means to protect the public, the court declares in his opinion.

The bill of complaint sought the restriction of all city officials in enforcing the ordinances governing the regulation of smoke and declared that the corporation has been subject to great expense because of litigation and attempts to comply with the ordinances.

### ANNULLED CHARTER

Of the New York and Bermudez Asphalt Company.

Washington, D. C., May 24.—Norman Hutchinson, charge d'affaires of the United States at Caracas, has cabled to the state department, confirming the press dispatches to the effect that the federal high court of Venezuela has rendered a decision annulling the charter of the New York & Bermudez Asphalt Co., on the ground that the company has failed to carry out the terms of its contract. He also says that the court has appointed experts to assess damages. An appeal has been taken by the company. Mr. Hutchinson's dispatch does not say what damages the experts are to assess, but it is supposed that an effort is to be made to make the company pay damages to the Venezuelan government on account of its alleged participation in the Matos revolution.

## TRIAL OF DENNISON, GAMBLER, POLITICIAN

For Complicity in a Diamond Robbery Committed Several Years Ago Begins at Des Moines.

Des Moines, Iowa, May 24.—The trial of Tom Dennison, the famous gambler-politician of Omaha, charged with complicity in the robbery of W. L. Pollock, the New York diamond merchant, has begun at Red Oak. Pollock, the New York diamond merchant, who several years ago was robbed of \$17,000 worth of uncut gems on a Northwestern train by Frank Shercliffe, Dennison's accomplice and chief tool in the crime, who is present and will be a leading witness for the state. Aside from the determination to secure the conviction of Dennison there is also reason to believe that it is intended to take Shercliffe into custody to answer for crimes committed in other states.

The really sensational features of the trial are expected when the names of prominent politicians of Iowa and Nebraska are brought out, who brought pressure to bear upon Gov. Shaw to grant Shercliffe's parole.
